

Integrate RingCentral with the applications you use every day

Do you and your teams use Salesforce, Google, or Outlook? Drive communication and collaboration by being able to streamline essential tasks with your key apps and workflows. RingCentral merges your communications with your vital work applications so now you can call, fax, text, meet and more without having to switch between applications.

RingCentral for Google

- Access merged contacts from within Google.
- Click to dial and send texts in Gmail™, Google Docs™, and your Chrome™ browser.
- Send faxes, schedule online meetings and Google Hangouts™ in your Google Calendar™.
